

## OPTIONS

### Methods of installation

- attached by bolts to foundation

### Container

- galvanized steel container

## DESCRIPTION

The Clipo 03.064 bin is a modern street bin belonging to the Modern line.

It is available in two versions: - entirely made of stainless steel - made of painted carbon steel, with front and back wall made of stainless steel.

The basket has a removable inner insert made of galvanised steel.

Its greatest asset is its innovative design. The futuristic, yet ascetic line, with curves at the base and at the canopy, is reminiscent of typical futuristic solutions. Moreover, the installed canopy makes the Clipo bin suitable for use both outdoors, e.g. in front of entrances to modern shopping malls or office buildings, and indoors in public places. The presented model is one metre high and less than half a metre wide and long. It is assembled with the use of expansion bolts. The Clipo litter bin is a model representing the small architecture of the future.

## GENERAL TECHNICAL DATA

### Weight

- 61 kg

### Dimensions

- width: 45 cm  
- height: 100 cm  
- depth: 30 cm

### Capacity

- capacity: 46 l

### Materials

- construction - stainless steel or carbon steel  
- container - stainless steel  
- insert - galvanised sheet metal

**NOTE:** The drawings do not reflect the actual dimensions of the foundation. They are only exemplary assembly schemes taking into account the type of anchoring and the substrate material to which the furniture is to be fixed.

The size of the foundation depends on the local foundation conditions.

### INSTALLATION INTO PAVING WITH FOUNDATION

#### Description of the assembly

1. ZANO product
2. Quick-action fastener or chemical anchor
3. Stone paving / concrete paving / stone slabs / concrete slabs
4. Sand ballast (approx. 2 - 4 cm)
5. Stone aggregate substructure
6. Concrete foundation, class C16/20 (top surface concrete 10 cm below paving surface)
7. Ground

### INSTALLATION TO PAVING

#### Description of the assembly

1. ZANO product
2. Quick-action fastener or chemical anchor
3. Stone paving / concrete paving / stone slabs / concrete slabs
4. Sand ballast (approx. 2 - 4 cm)
5. Stone aggregate substructure
6. Ground

### CONCRETE / ASPHALT MOUNTING

#### Description of the assembly

1. ZANO product
2. Quick-action fastener or chemical anchor
3. Fixed hardened surface e.g. concrete or asphalt
4. Concrete foundation, class C16/20 (top surface concrete 10 cm below paving surface)
5. Stone aggregate substructure
6. Sand ballast (approx. 2 - 4 cm)
7. Ground

### MOUNTING TO CONCRETE FOUNDATION

#### Description of the assembly

1. ZANO product
2. Quick-action fastener or chemical anchor
3. Concrete foundation, class C16/20 (top surface concrete 10 cm below paving surface)
4. Ground
