- galvanized steel container

DESCRIPTION

The Simple recycling bin is distinguished by its minimalist shape, which in combination with the materials used makes it very elegant and modern.

The bin is made entirely of steel. The waste containers are made of stainless steel. The top and walls are made of stainless steel or optionally of carbon steel painted in any RAL colour.

Each of the containers has a special sign in the upper part to facilitate waste segregation. Standard containers can segregate paper, glass and plastic. Each chamber contains a removable insert made of galvanised sheet for more convenient emptying. The capacity of each insert is 52 litres.
